Hiring Manager,

Calpar Global.

RE:Application For Software Development Internship

I am Constant Kavaya, an entry-level software developer. I am writing to apply for a Software Development internship at Calpar Global. I am impressed by the way Calpar Global is innovating tech solutions for businesses to be updated with the latest technology hence helping them to be successful.

I am currently working on a coffee project, which aims to use a mobile and web application in providing the consumers with more information about the coffee culture. Hence bridging the gap between the consumers and the businesses. I hope that through your company I will be able to grow in my skill and career.

Thank you for your time and consideration. I am looking forward to hearing from you soon.

Sincerely,

Constant Kavaya.
